

Workday Finance Functional Administrator

Job Code: U8760
Pay Grade: UF
Pay Scale: \$67,008.58-\$100,512.88 Annually
Exempt: Yes

OVERVIEW

This advanced-level role within the Financial Services Division (FSD) provides employee support, configuration, and maintenance for the following products: Financial Management (FIN), Payroll (PAY). Team members within are responsible for administering and optimizing the Workday functional areas and processes related to financial management, payroll, absence, time tracking, and scheduling.

DUTIES & RESPONSIBILITIES

Duties may vary based on assignment.

- Provide advanced end-user support and assist with user inquiries and provide guidance on FIN/PAY processes including, but not limited to, general ledger, accounts payable, accounts receivable, asset management, payroll, inventory, procurement, absence, time tracking, scheduling, and FIN/PAY-related reporting.
- Troubleshoot issues and escalate unresolved issues to the next level ERP Financial Services team member.
- Serve as Subject Matter Expert (SME) for FIN/PAY product administration including configuration, maintenance, and user support.
- Provide advanced research, analysis, and testing for both reported issues and new functionality within FIN/PAY.
- Lead FIN/PAY and cross-functional enhancement projects providing expertise, requirements gathering, testing, and implementation support.
- Coordinate with vendors and consultants, as needed, to support system upgrades or additional functional area implementations.
- Monitor FIN/PAY integrations, troubleshoot integration issues, and coordinate with functional area owners/users to resolve any FIN/PAY-related problems.
- Collaborate with internal FSD stakeholders to understand business requirements; translate those requirements into FIN/PAY configurations and workflows that align with Information Technology (IT) business requirements; and ensure that resulting processes and data comply with regulatory requirements, accounting standards, and internal controls.
- Collaborate with cross-functional teams (e.g., Human Resources, IT Security, Risk Management) to identify areas of improvement, streamline processes, and automate manual tasks.
- Conduct data audits and implement data quality measures to maintain FIN/PAY data integrity to ensure accurate and up to date data elements (e.g., chart of accounts, vendor information, customer information, fixed assets).
- Collaborate with internal and external auditors to facilitate audits and address any audit findings related to FIN/PAY systems and processes.
- Collaborate with IT to develop and maintain FIN/PAY reports, dashboards, and key performance indicators (KPIs) to provide timely and accurate financial information to management/stakeholders.
- Create and maintain standard and ad-hoc reports, analytics, and performance measurement tools to support FSD stakeholder data-driven insights and decision-making.

- Stay up to date with new Workday features and functionality evaluating their potential benefits and implementing relevant updates to enhance FIN/PAY performance and user experience.
- Support data migration projects including data extraction, cleansing, and loading activities.
- Create and maintain training materials and documentation to assist users in maximizing the capabilities of FIN/PAY.
- Provide training and guidance to end-users on the utilization of FIN/PAY functionality, self-service features, and best practices.
- Perform other related duties as required.

KNOWLEDGE & ABILITIES

- Strong understanding of financial processes and practices in the public sector.
- Working knowledge of management methods, techniques, and practices.
- Proficiency in report writing and analytics within Workday.
- Ability to take ownership of an aspect or task on a project with little to no assistance.
- Ability to translate business requirements into system configurations.
- Ability to maintain a detail-oriented focus on data accuracy and quality with an understanding of the importance of financial data privacy and security in the public sector.
- Ability to troubleshoot system issues effectively with an understanding of the unique challenges of the public sector.
- Ability to mentor team members.
- Ability to handle multiple tasks and prioritize effectively in a fast-paced environment.
- Ability to work independently and as part of a team.
