

ARCHITECT-ENGINEER QUALIFICATIONS

RFQ: 2026-002
RETENTION: 1 YEAR

PURPOSE:

The Hillsborough County Sheriff's Office (HCSO) will use this form to obtain information from architect-engineer (A-E) Suppliers about their professional qualifications.

The Selection of Architects and Engineers statute requires the public announcement of requirements for A-E services (with some exceptions provided by other statutes), and the selection of at least three of the most highly qualified suppliers based on demonstrated competence and professional qualifications according to specific criteria published in the announcement.

The information used to evaluate suppliers is RFQ 2026-002 *Architectural & Engineering Services (PART D)*, including performance evaluations, any additional data requested by the HCSO, and may include interviews with the most highly qualified suppliers and their references.

Attachment A will be used to select Awarded Suppliers for contract. Suppliers selected for A-E contracts will be selected based on professional qualifications listed herein, as required, on a project-by-project basis.

GENERAL INSTRUCTIONS:

Part I presents the qualifications for a specific contract.

Part II presents the general qualifications of a supplier or a specific branch office of a supplier. Part II has two uses:

1. An A-E supplier may submit Part II to the appropriate Buyer of the Agency to be kept on file. A public announcement is not required for certain contracts, and agencies may use Part II as a basis for selecting at least three of the most highly qualified suppliers for discussions prior to requesting submission of Part I. The retention period of this file for the HCSO is one (1) year. If a supplier has branch offices, submit a separate Part II for each branch office seeking work.

2. Prepare a separate Part II for each supplier that will be part of the team proposed for a specific contract and submitted with Part I. If a supplier has branch offices, submit a separate Part II for each branch office that has a key role on the team.

INDIVIDUAL AGENCY INSTRUCTIONS:

Individual agencies may supplement these instructions. For example, they may limit the number of projects or number of pages submitted in Part I in response to a public announcement for a particular project. Carefully comply with any agency instructions when preparing and submitting this form. Be as concise as possible and provide only the information requested by the agency.

DEFINITIONS:

Architect-Engineer Services: Services within the scope of the practice of architecture, professional engineering, landscape architecture, or registered surveying and mapping, as defined by the laws of the state.

Branch Office: A geographically distinct place of business or subsidiary office of a supplier that has a key role on the team.

Supplier: Any legal entity permitted by law to practice architecture, engineering, or surveying and mapping in the State of Florida.

Key Personnel: Individuals who will have major contract responsibilities and/or provide unusual or unique expertise.

After the listed experience categories, write in any unlisted relevant project experience categories and leave the profile codes blank. For each type of experience, enter the appropriate revenue index number to reflect the professional services revenues received annually (averaged over the last 5 years) by the supplier or branch office for performing that type of work. A particular project may be identified with one experience category, or it may be broken into components, as best reflects the capabilities and types of work performed by the supplier. However, do not double count the revenues received on a particular project.
