The below listed exceptions to the above list are also offered, in stock, for consideration.

[illegible]

Exceptions:

1. Duval Ford's bid is for STOCK vehicles per definition: [Part C, paragraph one and two] resulting from cancelled orders within its Governmental Dealership, ordering Code F24081. Any RETAIL allocated STOCK vehicles, designated by Ford Motor Company's order type "2" designation will be subject to availability. Availability is determined as: RETAIL vehicles without pending quotes, finance application, or special order commitment by a retail or commercial customer, as evidenced within the retail dealership (24200) dealer-management-software-system. Retail vehicles may appear to be available via website lookup but dealer has the final determination of what is Stock vs. Committed.

Appendix IV Pricing Sheet

Duval Ford

Revision Date 8.7.2025

Updated with Agreement Amendment 1

2. Ford Motor Company currently does not have a "stocking" program as of this time for the Governmental purchaser. Ford Motor Company has indicated that allocation is being reviewed for the Police Vehicle Specifications.
3. Dealer cannot obligate an IN STOCK vehicle without evidence of an agency PURCHASE ORDER. 24 Hour holds with verbal intent to order evidenced by email response to quote will govern.
4. Section 18, part C, paragraph one, dealer interprets "dealer changes price" to mean "manufacturer changes price".
5. Per page 20, section 12, paragraph 6: MSRP definition applies to the federally required Monroney label, not aftermarket additions, i.e. Service Body trucks. Duval Ford will discount up-fitted vehicles, or dealer adds/packages from the MSRP addendum posted to the vehicle record located next to the OEM Window Sticker.
6. Per Page 28, Section E, Duval Ford will make additional concessions for prior model year vehicles but cannot guarantee an additional fixed 2% due to changing OEM concessions per vehicle type. It is impossible to commit before this circumstance presents itself.
